INDOOR CALF RAISING PENS

Our innovative Indoor Calf Raising Pen allows complete observation of your calves. Our Heavy Duty Front Feeding Door makes accessing your calves quick and easy and feature an adjustable door with buckets that grows with your calf. The side panels have integrated calf dividers with no extra parts to assemble.

Backed by a 10 year limited warranty.

Molded in calf dividers prevent calves from cross suckling which will prevent the spread of disease.

Heavy duty front feeding door is reinforced with a steel frame.

**DROP-IN-GO
PEN SYSTEM**

Agri-Plastics Drop-In-Go Pen system offers quick and easy assembly and disassembly for cleaning and moving units. These units can also be mounted back to back.

Includes Rear Rotary Vents

**ADJUSTABLE
FRONT DOOR**

Adjustable front door grows as your calf grows for optimal calf comfort and development.

**OTHER GREAT FEATURES:**

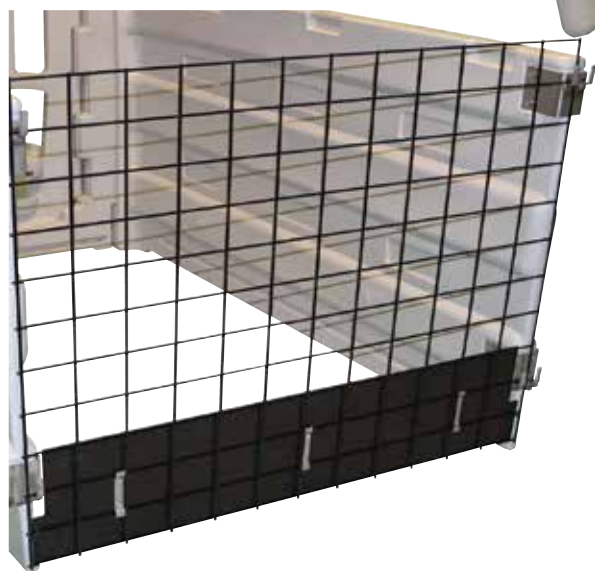

- Unique interlocking tongue in groove system makes for quick and easy assembling
- Easy to clean and lightweight
- The fastening system also allows you to dismantle units in minutes
- Does not promote the growth of bacteria or spread disease
- Pin holder storage - "No more dropped pins"
- Adjustable door
- Separate water and feed buckets, prevents food contamination
- Rear rotary vents on free standing models

DROP-IN-GO WIRE BACK PEN SYSTEM

Agri-Plastics Drop-in-Go wire back pen system, has the most airflow of any Wire Back Pen System on the market. It is quickly becoming a very popular model.

The Wire Back features a galvanized poly coated wire panel. This system is best utilized in buildings with insufficient ventilation. Opening the rear panel of the calf pen enables better airflow for the calf's environment. Also, with the Wire back pen system, bedding from the rear can be done with ease and no obstructions.

Molded in calf dividers, prevents calves from cross suckling, which will prevent the spread of disease

OPTIONAL BEDDING STOPPER

The bedding stopper helps contain the bedding inside the wire back hutch.

OUR EURO MODEL

Drop-In-Go Pen System has been designed for European Standards.
